

Consett Medical Centre Earnings Report

NHS England requires that the net earnings of doctors engaged in the practice is publicised and the required disclosure is shown below.

However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice and should not be used to form any judgement about GP earnings, nor to make comparison with any other practice.

The average pay for GPs working at Consett Medical Centre in the last financial year was £100,757 before tax and National Insurance. This is for 8 full-time GP's, 3 part-time GP's and 1 part-time salaried GP.
